

ORGANIZATIONAL IDENTITY AND POLICY PRIORITIES
2024

Vision	For Tennessee to be among the healthiest states in America.
Mission	Lead the way for a healthy tomorrow throughout Rural Tennessee <i>*Partnership *Advocacy *Education *Resources</i>
Core Values	<ol style="list-style-type: none"> 1. Diversity: Maintain a diverse membership representative of the rural and underrepresented communities we serve and foster an inclusive environment through respect of people and thought. 2. Health Equity: Promote the overall health of rural Tennesseans through the removal of barriers attributed to social determinants of health and increasing affordability and accessibility of quality, compassionate care in rural areas. 3. Health Education: Support and deliver evidence-based education and information to professionals and communities to improve overall health. 4. Collaboration: Partner with engaged communities, partner organizations, and policymakers to identify and address the healthcare needs in rural Tennessee. 5. Ethics: Adhere to the highest standards of professional integrity in all interactions and encourage others to do the same. 6. Sustainability: Maintain financially sound practices and good stewardship to achieve the long-term goals of improved social, physical, and emotional well-being of the rural and underserved citizens of Tennessee.
Policy Goals	<ol style="list-style-type: none"> 1. Reduce uninsured rates and insurance costs of small employers. 2. Increase provider reimbursements for Medicaid and Behavioral Health. 3. Expand access of Uninsured Adult Safety Net to Rural Health Clinics. 4. Invest directly in rural hospitals and clinics. 5. Expand healthcare workforce development programs. 6. Increase access to primary care and women’s health services. 7. Expand substance misuse prevention, treatment, and recovery services. 8. Protect Coordinated School Health programs. 9. Fund rural communities addressing local social drivers of health. 10. Expand provider capacity to refer to specialty and social needs care.

2024 Legislative Priorities

Since 1995, the mission of Rural Health Association of Tennessee (RHA) (www.tnruralhealth.org) is to lead the way to a healthy Tennessee through partnerships, advocacy, education, and resources. Our 800+ members include rural hospitals, clinics, school health professionals, mental and behavioral health providers, and others who work to address health disparities in rural and other minority populations.

Through interviews, listening sessions, and surveys, RHA members voted on the following priorities:

- **Increased Provider Reimbursement Rates** – Rural providers provide care to higher proportions of people who rely on Medicare and Medicaid for health insurance. Rates for these health plans are significantly less than commercial/private plans, contributing to rural hospital closures, acquisitions, and overall instability of the rural healthcare infrastructure. RHA supports policies that increase Medicaid reimbursement rates for rural hospitals, emergency centers, primary providers, and mental and behavioral health centers.
- **Uncompensated Care Reduction** – Uninsured individuals experience significant barriers in accessing care for behavioral health and substance abuse services, pediatric visits, and primary care. At the same time, the burden of providing uncompensated care has put a financial strain on rural hospitals, clinics, and other healthcare facilities. RHA supports policies that provide health coverage for uninsured Tennesseans. Additionally, we work to advance policies that reduce health insurance costs for small businesses, especially those within healthcare and service industries, to provide coverage for part-time employees.
- **Expanded Health Safety Net Eligibility and Reimbursement Rates** – Safety net programs expand access to health care, improve health outcomes, and increase the quality and efficiency of health care delivery in the state. In Tennessee there are 22 rural counties with no rural safety net provider. RHA advocates for expanding the Safety Net to allow federally designated Rural Health Clinics who offer sliding fee scales to participate in the Uninsured Adult Safety Net program.
- **Rural Health Workforce Development** – 100% of Tennessee’s rural counties are designated as Health Professional Shortage Areas for primary care, obstetrics, dental health, and mental and behavioral health. These workforce issues are not limited to higher credentialed medical providers, but also entry level positions such as certified nursing assistants, dental hygienists, and peer recovery specialists. RHA supports innovative programs aimed at recruiting, retaining, and upskilling rural healthcare workforce.
- **Funding Rural Communities to Address Social Drivers of Health** – SDOH are the conditions in which people live, work, play, and worship that can impact their physical, mental, and social health. Examples include employment, education, access to transportation, and food security, among others. Social drivers account for nearly 50% of health outcomes. RHA advocates for programs that allow for local-led solutions for addressing SDOH.
